CONSTRUCTION INSTRUCTIONS

1. **Tools** needed: cutting board, newspaper, cutting knife, scissors, ruler,

glue stick such as UHU, clothes pegs (for clamps)

2. Cut out the circle of hut A on Page 2.

2. Cut out wall of Hut A. Use a glue stick to glue the end tab inside the wall to form a ring. Hold till dry.

3. Fold the Bottom TABS of Hut A **OUTWARDS** at 90°. Fold the top TABS of Hut A **INWARDS** at approximately 45°.

4. Cut out the Roof of Hut A. Form into a **CONE** gluing the tab under the roof. Hold till dry.

DO NOT GLUE THE ROOF TO THE top of the WALLS YET!!

5. Turn page 2 upside down and run the glue stick around the edge of the hole for the hut A and insert the hut

MAKING SURE THE DOOR ALIGNS WITH THE PATH ON Page 2 (the Base)

REPEAT STEPS 2 to 5 for the slightly larger Hut B and the largest hut C.

6. With the model correct side up on a firm surface Press the base around the outside of the huts' wall firmly till dry.

7. When the walls of the huts are dry run the glue stick around the **triangular tabs on the TOPS of the walls.**

Carefully position the roofs **centrally** over the walls making sure the triangular tabs bend inwards and hold down firmly until dry.

8 If desired, glue the model to a piece of card the size of the base to strengthen your model

9. If you colour printed your model you may wish to spray with clear lacquer to protect the surface against moisture.

10. Decorate the base with modelling grass and trees if you wish.

11. To make a larger village mount two models long side-by-long side with one model rotated 180°.
